

ANGEL ONE TRAINING GROUP, LLC.
Thomas Rovetuso – Owner / Senior Instructor

Dear Sir or Ma'am,

Please allow me to introduce myself. I served with the Lake County (IL) Sheriff's Office for 24 years and retired in 2010. My last 5 years I was assigned to the Training Division as the full time Senior Firearms and Tactics Instructor and part-time Tactical Response Team – Field Commander.

I served 23 years as a member of the Tactical Response Team and 23 years as an instructor for the Lake County Sheriff's Office. I instructed over 5960 hours of in-service, tactical & sniper training in his last five years of service alone. I also served in the United States Marine Corps as an infantry Sergeant and I am a Gulf War Veteran.

I was invited by Dave Trudeau the owner of Clear-Armor to attend a demonstration of his product on Saturday, 23 February, 2013 at the Outdoorsman Sports Shop in Winthrop Harbor, Illinois. Dave explained that the demonstration would consist of a 3' x 6' piece of glass treated with his product, being secured into a non-padded steel frame and then shot with various caliber handgun rounds. I accepted Dave's invitation.

When I arrived at the demonstration, Dave invited me to "shoot the glass". I was allowed to load and then fire several handguns including:

9mm Luger 115gr FMJ	.45 ACP 230gr FMJ
.38 Special JHP	.45 ACP 230gr JHP
.357 Magnum JHP	.45 Long Colt 250gr JHP
.40 S&W 180gr JHP Bonded	

After all rounds were fired myself and the other attendees of the demonstration were allowed to walk down range and view the glass. Not a single round had penetrated the glass! Small shattered pieces of glass and glass dust covered the floor in front of the glass panel but nothing penetrated the glass panel and no loss of integrity occurred on the back side of the glass panel.

I was truly amazed and convinced that this product could greatly enhance the security and safety of schools and other high risk buildings as well as law enforcement applications from patrol vehicles to police stations.

Sincerely,
Tom
