Mr. Dave Trudeau
CEO
Clear Armor

Dave:

I wanted to let you know how impressed our school board representatives and staff members were with your Clear Armor demonstration on Saturday, August 3.

Your team did a great job of not only demonstrating the effectiveness of the product, but also provided a strong rationale for using the product, and thoroughly answered all questions.

Clear Armor not only provides an unbelievable level of safety from nearly every type of potential intruder, but, as an added bonus, the product has an energy savings capability and provides protection from high winds/tornados.

As a result of your demonstration and the quality of your product, it is our intention to recommend our school board invest in the safety of our 10,000 plus students by implementing Clear Armor in our school system.

We greatly appreciated your time and professionalism!

Sincerely,

Andrew T. Melin, Ph.D.
Superintendent
