

TRINE

UNIVERSITY

Mr. Dave Trudeau and Clear Armor Staff

I just wanted to say thank you for the outstanding demonstration that was held here in Angola, Indiana on Saturday August 31, 2013. I know myself; the Vice President of Student Services and the Angola Police Officers that were present were very impressed with your product.

Your team did a fantastic job with explaining how the different levels of the product solution worked. The smash test and ballistic demo confirmed how your product is definitely the ultimate window protection. Several rounds of ammunition were fired at the panes of glass you had displayed. From 9mm all the way up to a 44 magnum, your product stopped them all, including with the thinner 1/4 " glass. Again Very Impressive!

I personally believe Clear Armor should be used in every school across the country for the valuable protection it can provide. From a severe storm or armed intruder, I would feel safer knowing that my children were in a school with the Clear Armor protection.

I will be working diligently with the University staff for approval to have Clear Armor installed on some of our key areas at Trine. In the future I would like to see our whole campus protected with this great product.

Once again thank you for your time and hard work putting this demo together. From all of us at Trine University and the Angola Police Department, we appreciate you dedication to help make schools safer for all of our children.

Sincerely,

William J Petty

Director of Campus Safety

Trine University
